

Cyrano 41

Beauty Sun Cyrano

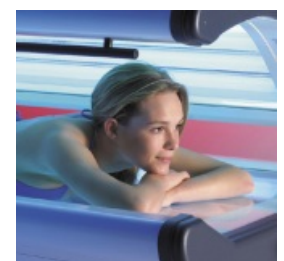

The latest generation of professional tanning equipment by Beauty Sun offers innovative standards in design, functionality and comfort. A solid metal frame and a light aluminium body guarantee long lasting results. The Cyrano equipment architecture facilitates easy maintenance; routine care and cleaning are quickly done and the acrylics swing out easily. Beauty Sun also keeps your clients in mind; the Cyrano equipment offers a generous tanning compartment with freedom of movement and a perfect all round tanning outcome.

The user-friendly control panel in the top section offers the possibility to regulate the body cooling, set the high power face tanners for their personal skin type and provide information on tanning time. The Cyrano equipment offers you a variety in air extraction, air conditioning, and type of body cooling along with a hi-fi speaker system. Compose your own tanning equipment to serve your needs, choose the colour to match your salon.

Customer after customer, the Power Source offers everything you need to make your salon the popular meeting point. Beauty Sun makes use of the latest techniques, including the 2m 180-Watt lamps, for fast and intensive all round tanning in optimal comfort. The high power face tanners are adjustable depending on skin type. Climatized bed surfaces and air-conditioned supported body cooling (and additional face cooling) offers the right temperature the whole body over.

For your guests: All handling and operating components are easy to read and reach, providing not only comfort but a true sense of security as well. The integrated spring system makes opening and closing of the top easy. A bonus for you: Easy cleaning guarantees easy work! To reduce the required cleaning and maintenance, the Power Source comes with dust filters on all air suction components. Replacing lamps (including high-pressure elements) is no problem at all. The service space for technical maintenance with all electronic components conveniently arranged is easily accessible.
